I understand that Black and Veatch, EPA's contractor, has contacted you about the mistake regarding Grambling University/Apparatus Engineering. Apparatus Engineering was a broker for SCM Metal Products (SCM Corporation) and not for Grambling University. Also enclosed are copies of documents (U35955, U35605-U35613, and U42789-U42792) from SCM Chemicals, identifying Apparatus Engineering. Grambling University's broker was Twin City Electric of Monroe, Louisiana.

In regard to Wiley Transformers, your information is correct. I was in error in stating that Wiley Transformers was a customer of TSI. Information in our files indicates Wiley Transformers was a generator of PCBs, brokered by Jerry's Electric, Inc.

A decision on whether to include Alamo Transformer Supply Co. (Alamo) on your PRP list is your decision. Under Section 107 of CERCLA, Alamo is a PRP and will remain so until all matters connected with Rose Chemicals have been resolved. This seems to be a situation similar to the Cherry-Burrell/Nelson Electric matter. Enclosed are records (U13764-U13773) received from the City of Caldwell, Texas identifying Alamo as a broker for the City of Caldwell, Texas.

I apologize for not supplying the requested information sooner. Please contact me if you have further questions.

Sincerely yours,

J. Scott Pemberton  
Assistant Regional Counsel
